Maria Deniston

Python Full Stack Developer

Portfolio: maria-deniston.com
github.com/denmarkdeni
linkedin.com/in/maria-deniston

Profile Summary

Python Full Stack Developer with 1.5 years of hands-on development experience — including Python, Django, React, JavaScript, HTML/CSS, and SQL, along with foundational work in C# and Windows application development. Currently working as a Python Full Stack Trainer & Developer for 1.2 years, training and mentoring 300+ students while independently building the company's internal CRM and marketing web pages using React. Strong focus on backend development, REST APIs, and clean, maintainable code — seeking a full-time Python Full Stack Developer role to apply this hands-on experience at scale.

Skills

Front End	HTML, CSS, JavaScript, React, Tailwind, Bootstrap
Back End	Python, Django, REST APIs, C#, Dot Net
Databases	SQLite, SQL Server, Mongodb, MySQL, PostgreSQL
Tools & Technologies	Git, Postman, Ubuntu, VS Code , Excel
AI Tools	Github Copilot, ChatGPT , Claude , Cursor
Soft skills	Strong communication, Problem-solving

Experience

PYTHON FULL STACK DEVELOPER & TRAINER — **July 2025 — Current**
Login360 Software Training Institute (Linkedin) — *Velachery, Chennai*

- Built, reviewed, and debugged full-stack applications using Python, Django, React, and SQL.
- Designed and validated REST APIs and backend logic used in student projects.
- Developed responsive marketing web pages using React, for the company's public-facing site.
- Maintained the company's internal CRM system using React, replacing manual tracking workflows.

PYTHON FULL STACK DEVELOPER — **Jan 2025 — Jul 2025**
Soft Zone Training Pvt Ltd (Linkedin) — *Thampanoor, Trivandrum*

- Engineered AI-powered web applications using Django, enabling students to transform ideas into live platforms.
- Mentored 9 student teams, guiding them through project planning, coding, debugging, and deployment.
- Optimized application performance, reducing load times by 15% with efficient Django and React integrations.
- Implemented secure REST APIs, enhancing data handling and user interaction for academic projects.

C# DEVELOPER — **May 2024 — Oct 2024**
Logic Technologies Pvt Ltd (Linkedin) — *Tuticorin, Tamilnadu*

- Built scalable retail and supermarket management systems using C#, .NET, SQL Server, and Crystal Reports.
- Created customized reports using Crystal Reports integrated with SQL for real-time data insights.
- Designed and implemented user-friendly interfaces for efficient billing and inventory management.

My Best Projects

Fake Detect – **Fake Product Detection Platform (Github)** — **Apr 2025 — Jun 2025**

- Built a full-stack app using Django, DRF, React with hooks, and Material UI for counterfeit product detection.
- Developed a seller score system based on user reviews and reports to identify fraud or legitimacy.
- Designed responsive interfaces for seamless user reporting and product verification.

Estate Connect – **Property Management Platform (Github)** — **Jan 2025 — Apr 2025**

- Engineered a full-stack Django platform connecting dealers, customers, and engineers with role-based admin oversight.
- Developed AI-driven estate suggestions using Google T5 model, enhancing user decision-making.
- Designed auto-generated floor plan feature with Matplotlib, improving property visualization efficiency.

Organ Connect – **Organ Donation Coordination System (Github)** — **Jan 2025 — Apr 2025**

- Built a Django app for donor/recipient registration, hospital management, and organ matching workflows.
- Implemented secure, user-friendly console forms for donors and recipients, streamlining interactions.
- Integrated Rasa Server for AI chatbot, enabling real-time query resolution for users.

ForensicAi - **Digital Case Analysis System (Github)** — **Jan 2025 — Apr 2025**

- Developed a Django-based system for managing digital forensic case data with role-based access.
- Engineered AI-driven evidence analysis setup, boosting case processing accuracy and speed.
- Designed role-specific dashboards for Admin, Investigator, Evidence Analyst, and System User.

Vacation Jobs – Micro Jobs Earnings Portal (Github) **Nov 2024 — Jan 2025**

- Created a scalable Django platform with referral-based user system and visual user-tree map.
- Integrated Razorpay for secure, multi-level payment splitting across 8 team tiers.
- Implemented email verification to prevent bot logins, enhancing platform security.

Education

Bachelor's Degree, *V.O.Chidambaram College* **June 2021 – May 2024**
Manonmaniam Sundaranar University - CGPA : 7.5 *Tuticorin, Tamilnadu*
Mathematics & Biology, *St.Francis Xavier School* **June 2018 – May 2020**
State Board Of Tamilnadu - X : 92% , XI : 70% , XII : 75% *Tuticorin, Tamilnadu*
